

## **Hospice of the Piedmont COVID-19 Update – As of March 18, 2020**

The coronavirus (COVID-19) outbreak continues to evolve rapidly, both globally and locally. As always, the quality of care we provide to our patients and family members and the safety of our staff remain our top priorities.

Hospice of the Piedmont is taking steps to ensure the safety of our patients and family members, staff, and volunteers. We are monitoring the information from the Center for Disease Control and Prevention (CDC), and the Virginia Department of Health (VDH), which includes the Thomas Jefferson Health District and the Rappahannock Rapidan Health District, as well as the Centers for Medicare & Medicaid Services (CMS). We are following their recommendations:

### **Patient Care**

At Hospice of the Piedmont, safety has always been a top priority. We have developed a comprehensive plan to maintain the safety of our staff, since our coworkers must remain safe and healthy in order to care for our patients and their families.

### **Visitation to the Center for Acute Hospice Care and Hospice House**

- As of March 25, we are restricting visitors at the Hospice House and Center for Acute Hospice Care to two visitors per patient.
- All visitors and staff will continue to be screened before entering the Center for Acute Hospice Care and Hospice House. Screening measures include:
  - o Taking the temperatures of everyone (visitors and staff) prior to entering the Center for Acute Hospice Care and Hospice House
  - o Screening for any travel to or through high-risk areas, as determined by the CDC, during the last 14 days
  - o Screening for close contact with someone who has traveled in the last 14 days to or through high risk areas
  - o Monitoring for any COVID19 or flu-like symptoms such as fever, cough or shortness of breath
  - o Enforcing and educating staff and visitors on proper hand hygiene and the increased use of personal protective equipment

### **In-person Meetings**

- On-site meetings with vendors and other guests are discontinued; meetings are being conducted by teleconference or virtually (e.g. Skype) until further notice.
- Administrative staff members, in almost all cases, are working from home, and staff is expected to be practicing social distancing.

### **Chaplain, Grief Counselor, and Social Worker Home and Facility Visits**

- In most cases, Chaplain, Grief Counselor, and Social Worker visits are being conducted via video conference or phone call. If there is an urgent need for an on-site visit, family members should call 434-817-6900.

*(more)*

### **Grief Support Classes**

- Scheduled in-person support groups and workshops are suspended until further notice. We will continue to provide individual grief support and grief counseling services via the telephone until further notice.

### **Volunteer Services**

- All in-person volunteer services are suspended until further notice.

### **Staying Informed**

- We are continuing to monitor this rapidly evolving situation, and our team has developed a comprehensive response plan to help maintain the safety and well-being of our patients, families, staff, and volunteers.

We will continue to provide updates as the situation evolves. Please refer to CDC resources below for additional updates.
